The ALLNET Windows/Linux PoE display is the first display on x86 platform which can be operated with Windows or Linux. The cooling is active, but the fan can also be unplugged by removing the cover and unplugging the fan. The cooling unit is able to cool the CPU without a fan at appropriate ambient temperatures (less than 28°C). The displays are designed for wall mounting or desktop operation and are suitable for POS (point of sale), cash register systems, home automation, marketing displays, time recording, video surveillance, terminals, etc.
